BRIEF INTRODUCTION

34th IUGB CONGRESS

KEY TOPIC: Wildlife: Coexistence or Opposite?

IUGB AT A GLANCE

The **International Union of Game Biologists (IUGB)** is a non-profit organisation with international membership. It has its legal domicile in Cernier, Switzerland. Its actual bylaws have been signed in Moscow, in 2009.

The aims are to promote the improvement of knowledge about game biology and any other skill related to wildlife, such as wise use of animal populations and the conservation of their habitats. To reach this aim, a conference is taking place every two years since 1954. Over time, IUGB has become a platform that allows networking between its Members.

The IUGB:

- organizes an international congress every two year;
- promotes the concept of sustainable use of wildlife resources;
- stimulates research and international technical cooperation in the elaboration of new models of development and management of renewable resources, integrating the objectives of wildlife conservation, wise land use and economic decisions;
- promotes awareness and appreciation of wildlife values;
- supports and advances high standards of education and professional performance in the field of wildlife management;
- contributes to the solidarity amongst its Members;
- is committed to the protection of wild animals and the conservation of species;
- exchanges information and encourages other forms of collaboration between this and other associations in allied scientific disciplines.

IUGB: Historical Development

The first meeting took place at the International Exhibition of Hunting and Game Fishing in Düsseldorf, Germany, under the supervision of Professor Fritz Nüsslein on October 16 and 17 1954, at the suggestion of Harry Frank. A free association titled „Internationaler Ring der Jagdwissenschaftler“ was founded. The second meeting was held in Graz, Austria, in 1955, and later congresses every second year. At the suggestion of H. M. Thamdrup, it was supervised by a committee, later by the presidents of the previous, present, and planned future congress.

Over the years IUGB was operated as a rather flexible structure, acting as a meeting/congress, discussion and knowledge exchange platform for biologists, game managers, hunters, foresters, veterinarians, sociologists, rural economists and other users of natural resources, sharing a professional/academic interest in the conservation, biology, management and sustainable use of game resources as well as of other wild species and their habitats.

The main IUGB event is the international Congress, organized every second year in a different country. Previous IUGB Congresses (e.g. Hannover 2005, Uppsala 2007, Moscow 2009, Barcelona 2011, Brussels 2013, Puebla 2015 and Montpellier 2017) have attracted an international audience of up to 500 wildlife experts from all over the world, the outcome of which usually being published in the IUGB separate proceedings or in the peer reviewed and high quality scientific journals.

KEY REASONS WHY YOU SHOULD BECOME A SPONSOR/EXHIBITOR FOR IUGB 2019

- **Networking with: ≈ 400 wildlife professionals**
- **Generate new collaborations & renewed interest in your organization**
- **Update your scientific knowledge and management skills**
- **Identify promising new developments for your organization**
- **Showcase your services in the presence of international scientists**
- **Demonstrate your support for wildlife stewardship**

MODALITIES

- **Several levels of sponsorship are available ranging from € 500 to > € 20.000**
- **We are flexible in accepting financial support through bank transfer, direct organisation of events or individual gifts**
- **For the convenience of our sponsors, LAMMC will issue an itemized invoice**
- **Participating Sponsor/Exhibitor will have high-profile coverage on our webpage, in the Congress venue and will be advertised in the Scientific Programme**
- **Social Event Hosts will be recognized with their logo on a poster at sponsored event**

If you would agree to become a Sponsor/Exhibitor for the IUGB 2019 Congress, please contact the organizing committee at miskinst@mi.lt
